

PNWMAS TANKS FOR TEACHERS (TFT) APPLICATION

Teacher: \_\_\_\_\_

School Name: \_\_\_\_\_

Grade Level(s): \_\_\_\_\_

What subject(s) do you teach:

Is this project part of a unit you are teaching? If so would you be willing to share any of the materials you create with other TFT teachers. Please list ideas or lessons that might be shared.

State in 100 words why you would like to have a saltwater tank in your classroom.

How do you plan on caring for your tank during summer months when school is not in session? (Tank will be 20-30 gallons and should be transportable.)

Requirements:

Wiki participation:

We ask that you join the wiki and create a page for your tank. On that page we ask that you include the following info:

- A. Tank setup process and development. Please include pictures.
- B. Monthly Water Parameters (at minimum)
- C. A maintenance schedule plan
- D. A stocking list with occasional comments.
- E. We ask that you share one lesson per year that relates to the ocean or marine life. This lesson should be published on the wiki for other teachers to use. It can be any grade level.

All tanks must be maintained for one school year. If you cannot keep the tank over the Summer you need to inform the PNWMAS President or a Board Member 30 days prior to the end of the school year in writing or via email.

All recipients of tanks must make every effort to follow good aquatic husbandry practices including following a maintenance schedule and researching proper stocking practices for a small marine aquarium.

I understand the above requirements and follow the guidelines.

Teacher Signature: \_\_\_\_\_ Date: \_\_\_\_\_/\_\_\_\_\_/\_\_\_\_\_
