AquaMaxx AM and AM-S Series In-Sump Protein Skimmers

Overview

AquaMaxx AM and AM-S Series in-sume protein skimmers are built using exceptional cell-cast acrylic, bubble plates and easily adjustable riser tubes.

They are rated for aquariums 100-300 gallons yet are thin enough to be concealed in a sump underneath your aquarium.

AquaMaxx in-sume protein skimmers remove organic waste from aquarium water. They create a strong mix of small air bubbles and turbulent water movement to force protein, waste and other materials into a collection cup for easy removal.

AquaMaxx skimmers are computer-precision engineered and utilize the latest filtration technology to deliver the performance and value you are looking for in a protein skimmer.

Ease of Use

AquaMaxx in-sume protein skimmers are easy to setup and maintain. Just twist the knob counter clockwise at the top of the riser pipe to adjust the foam level to wet or dry. Maintenance is simple. A removable collection cup makes cleaning easy. Plus, every AquaMaxx protein skimmer includes a drain fitting for hobbyists who want to setup a separate reservoir for skimmate. A silencer located at the top of the riser tube eliminates noise from the venturi.

Compact Design

AquaMaxx protein skimmers were designed from the ground up with the hobbyist in mind. AquaMaxx HOB Series protein skimmers have the pump placed inside the skimmer itself to save space, reduce noise and improve efficiency. A built-in silencer further reduces noise for near-silent operation. All AquaMaxx protein skimmers are computer designed. Each unit is precision-cut and made of polished cell-cast acrylic.

So Many Options, So Many Features

AquaMaxx protein skimmers were designed from the ground up with the hobbyist in mind. The AquaMaxx AM-2500 protein skimmer has the pump placed inside the skimmer itself to save space, reduce noise and improve efficiency. All AquaMaxx protein skimmers have rubber feet that isolate noise and reduce vibration. AquaMaxx protein skimmers are computer designed. Each unit is precision-cut and made of polished cell-cast acrylic.

Performance

AquaMaxx in-sume protein skimmers feature Sedra or Sicce pumps with special needlewheel impellers to produce large amounts of air with optimum bubble size. These pump and protein skimmer combinations deliver unprecedented performance and reliability. Aquarium waste will be vigorously removed from your tank so you can focus less on maintenance and more on enjoying your piece of the reef.

Specifications

	AM100	AM150	AM200-S	AM250	AM300-S	AM350	AM500
FootPrint	7" x 12"	7" x 12"	6.8" x 10"	9" x 13"	9" x 13"	16" x 18"	15" x 22"
Pump (Included)	Sedra-5000	Sedra-7000	Sicce PSK-1500*	Sedra-9000	Sicce PSK-2500*	2 x Sedra-7000	2 x Sedra-9000
Pump Power Consumption	19 Watts	40 Watts	19 Watts	45 Watts	23 Watts	2 x 40 Watts	2 x 45 Watts

Air Intake	450 LPH	600 LPH	600 LPH	1050 LPH	1000 LPH	1680 LPH	2100 LPH
Chamber Diameter	5"	6"	6"	8"	8"	10"	12"
Height	24"	24"	24"	24"	24"	23"	23"
Outlet Size	1" Adj. Valve	1" Adj. Valve	1: Adj. Valve	1.5" Adj. Valve	1" Adj. Valve	1.5" Adj. Valve	1.5" Adj. Valve
Volume Rating	Up to 100 Gal.	Up to 160 Gal.	Up to 200 Gal.	Up to 250 Gal.	Up to 300 Gal.	Up to 350 Gal.	Up to 500 Gal.

*The Sicce pump is modified with an enlarge volute cover and Aqua Maxx needle wheel impeller.
